Biography

MAR is an artist in every sense of the word: composer, producer, singer, and above all, a great human being full of light, who, just a few months after her solo release, has captivated the public on her own merits.

With the premiere of songs like "**QUÉDATE**", "**CALAVERA**" and a new refreshed version of "**MÁS QUE TU AMIGA**" (originally a big hit by her father, the iconic Mexican singer-songwriter MARCO ANTONIO SOLÍS), almost a year after her launch in the entertainment industry, **MAR** has shown that she was born to sing and write songs, and that music is where she feels like a 'fish in water'. Likewise, the public has received her with great affection and enthusiasm. Her three released songs have been placed as **TOP #1 #HOTSONG** in the radio popularity charts of different countries.

On August 23, 2022, **MAR** performed for the first time at the Palacio de Los Deportes in Santo Domingo, DR, as a Special Guest during the **LUIS FONSI** y **REIK** concert. Likewise, in Mexico, she was invited to open the **DANNY OCEAN** concert in Guadalajara, with amazing welcome by the audience.

On March 19, 2023, the stage of the National Auditorium in Mexico welcomed **MAR** for the first time, as a special guest of the Monterrey singer **GLORIA TREVI**. Later she joined the Mexican tour of Colombian singer **MANUEL TURIZO** in concerts held in Guadalajara (*Telmex Auditorium*), Hermosillo, Sonora (*Centro de Usos Múltiples*) and National Auditorium in CDMX.

In April and May, **MAR** was invited to join again in two important TOURS: the **CAMILO** Tour 2023 concerts in Cayalá, Guatemala and at the Cuscatlán Stadium in San Salvador, as well as in the concerts of the singer **GLORIA TREVI** in Mexico and South America: **Telmex Auditorium in Guadalajara, Aguascalientes, for the second time Auditorio Nacional Cdmx, Tepic, Nay., Puerto Vallarta Jal Convention Center, Movistar Arena in Santiago de Chile, Arena 1 San Miguel, Peru, Movistar Arena Bogotá, Colombia.**

On September 15, 2023, **MAR** will once again accompany **GLORIA TREVI** at the **Planet Hollywood in Las Vegas**, Nevada to celebrate Mexico's Independence Day.

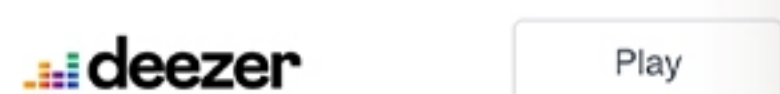

On June 23, it marks the beginning of a new stage in her career as she releases her first single in English, "**TAKING BACK YOUR HEART**," a captivating pop song that fully ventures into exploring new frontiers, conquering new horizons, and reaching a wider audience with her music.

Meanwhile, **MAR** continues to prepare all the details to release her first English album, producing more songs in Spanish, and will soon be announcing her upcoming live performances.

THE MARVEL NAMED *MAR*

HAS LATIN AMERICA FOUND ITS NEW DIVA?

Young talent in the age of the internet is definitely a buyers market. The hardest part of scouting was to hop from club to bar, to the bario to hear what the streets had to offer. But every so often, between the beat jockers and sample pickers, a fresh breeze comes in. 2022 is the year of the MAR, one of the most charismatic, open minded, and talented pop stars to hop in the game at just 21 years of age. Her mother, a native cuban, and her father, a renowned mexican musician, she has perfectly crafted her sound to fit the lush cultural background she was immersed in throughout her youth.

Her debut track *QUÉDATE* released on June 10th 2022, is an instant hit, and dancefloor buster. From the very beginning, *QUÉDATE* is a sensual calling to one's passions: being free to do what you please and being honest with one's desires. Missing "Stay" in English, the singer addresses the everyday attractions we feel in the presence of a passing stranger that "tickles our fancy". But more than just butterflies in our belly, the song explores our attraction to the unknown and how one needs to be honest with their vulnerability when taking the plunge. These very profound themes are definitely not what one would expect from a bubbly pop song, but as the artist has explained in an interview, exploring one's inner-child, vulnerability and innocence, is an absolute need in today's larger society and a central theme to the work she is releasing over the next year.

"This song reflects something that we live many times, where the people and experiences that move us the most happen at unexpected moments, where a connection drives us to do or say things to capture that moment. Like the sun and the moon that in a moment are and later no longer." — *MAR*
